

Bear Construction Completes New Offices For St. Paul Travelers Insurance Companies.

Rolling Meadows, IL. based Bear Construction recently completed 48,000 square feet of office renovations for St. Paul Travelers Insurance Companies located at 200 N. LaSalle St. in Chicago. The project included concurrent work on 3 floors of the building, with portions of each floor remaining occupied and operational during the work. Bear's team worked closely with both St. Paul Travelers and Transwestern, the building's management company, to minimize costs and to maintain tenant access to each floor as well as the building's public areas at all times. Early selection of finishes, the sequencing of work and pre-ordering of long delivery items allowed Bear to meet the accelerated construction schedule which called for the project to be completed in 6 weeks
