Suite L125  
Schaumburg, IL 60173

Dear Mr. Wienold:

I am writing regarding the above referenced project that your company recently completed for us. I wanted to convey my deepest thanks and appreciation for the outstanding job performed and the professionalism demonstrated by your staff.

Tom Heneghan, our assigned project manager, was indispensable to me throughout the course of a project that required a very quick turn around as well as meticulous attention to detail. There were numerous inaccuracies in the architect's drawings that Tom found, brought to my attention, and then successfully resolved. He even provided interior design guidance from sample selection to furniture placement.

Jim Hronez, the job superintendent, ran a very tight ship and was very attentive and patient when answering my numerous questions. His crew was always polite and clearly demonstrated pride in their work. Our new space has great functionality but is quite beautiful too.

It was truly a pleasure working with your team. Please don't hesitate to use me as a reference for future projects.

Sincerely,

Kimberly Swartz, MBA CPA
